

bjss

Financial Services

We are BJSS, trusted by clients to solve their complex technology problems.

We can help you deliver digital-first, client-centric experiences through powerful cloud solutions and data-enabled personalisation. Harness cloud agility to optimise costs and better manage security and compliance risks.

How we help

- Deliver superior digital banking experiences
- Give customers more control over their finances
- Digitally transform offerings to build competitive advantage
- Leverage Open Banking capabilities to deliver innovative products and services

Who we help

Banking

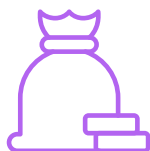

Insurance

Capital Markets

Building Societies

Wealth and Asset Management

Success Story: Creating an Enterprise Data Platform for Just Group

BJSS built a data platform that is a critical part of delivering the Just Group's data strategy, allowing the retirement specialist to identify and eradicate areas of potential revenue loss.

Why BJSS?

- **Your end-to-end supplier** – We combine business consulting with building tech solutions to align engineering, advanced technology, user-focused design and a collaborative delivery approach.
- **Over 30 years in the industry** – BJSS combines deep, real-world knowledge of the challenges faced in the Financial Services industry with experience as code to build scalable and resilient software and data systems.
- **Strong hyperscaler partnerships** – We have decades of experience working with AWS, Microsoft and Google Cloud.
- **Engineering excellence** – We have a track record of providing highly skilled, highly reliable, high-value onshore resources across a wide range of Financial Services business and technology consulting services.
- **Unlock Open Banking** – Our extensive experience in the API space gives us the perfect background to help you deliver the innovative new services made possible by Open Banking.

Trusted by clients across the industry

Success Story: Helping A Top Four UK Bank Meet Open Banking Regulatory Targets

BJSS provided specialist technical expertise to build API solutions that allowed the client to become the first in the market to initiate a variable recurring payment (VRP) in a live environment, well before any other UK retail bank.

Success Story: Supporting a Major UK Retail Bank's Cloud Evolution

BJSS supported the bank's cloud services in the early stages of its Cloud Platform Evolution and cut the lead time for provisioning public cloud environments from weeks to hours.
